

Enterprise Pricing Sheet

Custom video OCR infrastructure for teams that need predictable scale, tailored service levels, and flexible commercial terms.

What is included

Custom credit allocation	Monthly volume sized to your video-processing needs, with options for committed or usage-based credit pools.
Dedicated capacity	Dedicated worker clusters and tailored concurrency limits for priority workloads.
Video OCR deliverables	Frame-level text extraction, timecoded metadata, bounding boxes, entity extraction, and job traces through the SightAPI API.
Support and SLA	Named technical contact, priority support, and a service-level agreement configured for your team.
Commercial flexibility	Custom billing cadence, invoicing, security review support, and deployment options where available.

Pricing

Plan	Price	Typical scope
Enterprise	Custom quote	Volume credits, dedicated capacity, custom rate limits, support, and SLA.
Additional services	Quoted separately	Optional deployment, integration, security, or implementation requirements.

Request a quote

Email m1980pinki@gmail.com with your anticipated video volume, processing requirements, preferred support level, and billing preferences. We will provide a written custom quote before purchase.

SightAPI is operated by Pinki Mondal, sole proprietor. This sheet is informational and does not create a binding agreement; final pricing and service terms are stated in the applicable order or written agreement.
